8.Wifi attentions

1.Important notifications To prevent unnecessary harm, please keep in mind of the following notifications Please don’t use Wi-Fi where the wireless device is not allowed, such as airport, medical places and etc. Please don’t turn on your smartphone in dangerous places, such as gas station, fuel or chemicals manufactures, and etc. Please don’t use mismatched devices. Please find a qualified repair man to fix the Wi-Fi. Please refer to the user manual for the detailed connection methods, please don’t randomly use mismatched devices.

2 Notifications：

2.1 The App control quality is affected by your smartphone, Wi-Fi network, distance with router, and internet status. Sometime it is not very smooth. It has nothing to do with air conditioner itself；

2.2 If you find it failed to control with your smartphone, please check your internet status at first, then check whether it is successfully connected with air conditioner; If these circumstances are alright, please delete the device first on your App and start the procedures all over again from the step 3.2.

2.3 If you still cannot solve the issues with the methods above, please control the Air conditioner with your normal remoter and then request for after-sale service.

Radio Equipment Directive (2014/53/EU)

We, Kallipi Karyda & Co., LP,

hereby declare that the products, (including the Wi-Fi modules), comply with the essential requirements and relevant provisions of the RED Directive 2014/53/EU.
